DETAILED ACTION

1. Claims 1-16 were previously examined.
2. Claim 17 was added.
3. Claims 1-17 were examined.

Section I: Non-Final Rejection (2nd Office Action)

Specification Objection (New Matter)

4. The amendment filed 5/7/05 is objected to under 35 U.S.C. 132(a) because it introduces new matter into the disclosure. 35 U.S.C. 132(a) states that no amendment shall introduce new matter into the disclosure of the invention. The added material which is not supported by the original disclosure is as follows (page 15, 1st paragraph):

Depending different the approach to select one among the many possible fixes, there can be other ways to define how the weights and the likelihood rating should be calculated as long as the likelihood ratings (or, to be short, ratings) help selecting a fix

Applicant is required to cancel the new matter in the reply to this Office Action.

Claim Rejections - 35 USC § 101

5. Claims 1-17 are rejected under 35 U.S.C. 101 because there's no indication of the use of hardware i.e., a computer, to accomplish such steps, thus deemed non-tangible. Furthermore, these claims are not geared towards the computer-based arts since one can perform these methods by pencil and paper. Additional claims reflecting the hardware aspect of the invention is necessary.
